## Notes From Elayne

First and foremost, I want to talk about the 25th Anniversary Party. I would love to see all of you. I know that is not possible, that you do have other obligations. However, we have planned this so that you will be able to see everyone in your class. There will be places where each class can catch up with each other. We are not going to bore you with a lot of speakers or a lot of presentations. This is a party to recognize YOU! You are the people that have worked very hard volunteering in the community. So please come so that we can honor YOU for all the work you have done to make Baltimore County and the Region a better place to live, work and play. I am looking forward to seeing you all.

Don't forget the date: Thursday, October 8-6:00 p.m. at the Maryland Zoo Mansion House. Tickets are \$125. Visit the Leadership website to purchase your ticket at [www.leadershipbaltimorecounty.net](http://www.leadershipbaltimorecounty.net).

We had a fantastic retreat this year. Same facilitator, many of you know Peter Culman, but brand new location. We went to NorthBay Adventure Camp, which is an all-year-round children's camp in Northeast, Maryland. The facility is wonderful overlooking the bay, with fantastic ropes courses and high elements that send you literally soaring over the bay!! We slept in bunks (they were a little too small!), ate camp food, did all the silly things we did at Genesee Valley, and finished off by doing the ropes courses. It was great not having to get up at 6:30 a.m. to take the ride across the County to get to Genesee Valley Outdoor Learning Center! No one got lost going from their bunk to the ropes course!

You will absolutely love this new class. There are a lot of interesting people that are good sports and are willing to share ideas. See page 4 for the new class list.

## Strategic Energy Perspectives

"Businesses are under increasing scrutiny for triple bottom line performance-financial, environmental and social. More than just buzz words, these are the keys to competitiveness in the 21st century," says LBC Alum Christopher Russell, Principal of Energy Pathfinder Management Consulting, LLC.

On October 6th, CCBC Catonsville is offering a special, one-day continuing education course entitled, "Energy, Money and Business: Strategies for Business Managers" led by Chris Russell. While most energy courses tend to be technical or mechanical in nature, this energy course is purposely designed to serve managers who are responsible for planning, budgeting and operations. "CCBC is currently expanding its capacity to keep pace with energy sector needs," says Beth Arman, LBC Alum and CCBC's Director of Technical Training in its Continuing Education and Economic Development division. CCBC is offering this course as part of a larger effort to boost energy-related economic development opportunities in MD.

This day-long course outlines strategic options for business leaders to conserve, invest and grow wealth through their energy-related choices. To register or for more information, call CCBC at 443-840-4700.

### *A Because of LBC Moment Worth Noting...*

This is a segment of a letter sent by an LBC graduate to her current class after recently losing her job during the economic downturn...

"I wanted to thank all of you for your tremendous support during my job transition period. You cannot imagine what it meant to me to have support from all of you. It is connections like these that we have formed over the past months that will keep us together for years to come. Many of you have reached out to me and connected me to your network of contacts-this has been both wonderful emotionally, and tremendously helpful to me in terms of landing a job. I have accepted a position with Johns Hopkins Applied Physics Lab."
